

## Product Specifications

| January 2020

- Product Description:** The KleenCap Detectable Hair Cover, featuring 'hairBarrier' technology offers two times better hair containment than a standard mobcap, and six times better hair containment when worn in combination with a HiCare Hairnet. The KleenCap features an ultra-fine, multi-layered mesh barrier, keeping hairs inside the barrier and away from the products being processed.
- Product Code:** 8900398-B
- Batch Quantity:** Packs of 25
- Batch Weight:** 0.200kg
- Product Dimensions:** Adjustable
- Colour Availability:** Blue
- Product Advantages:**
- ✓ Detectable by conventional metal detection systems
  - ✓ Highly visible bright blue colour for easy visual identification
  - ✓ Significantly reduces foreign body facial hair contamination
  - ✓ Two integral metal detectable grips reduces the risk of the product itself becoming a foreign body contaminant
- Product Material(s):** Manufactured entirely from Polyester and Elastane, with the addition of two stainless steel grips.
- Dye Fastness:** 4/5 Grey Scale C06A2S

## PRODUKTINFORMATIONEN

**Metal Detectability**

The KleenCap Detectable Hair Cover contains two 5mm stainless steel grips (Front & Back), which can be detected by correctly calibrated metal detection systems. The detectability of this material will vary based upon the metal detection systems being used and their calibration. Detectability performance will vary based on, but not limited to the following factors:

- Detector Calibration Levels
- Food Product Type (E.g. Wet, Dry, Frozen, Liquid)
- Aperture Dimensions
- Contaminant Orientation

For this reason Niebling recommend that all our products be thoroughly tested on your metal detection systems by a trained and certified professional. It may be the case that your equipment needs to be recalibrated in order to reliably detect this product and its fragments. Such a professional should be available by contacting the manufacturer of your metal detection system.
