Product Specifications

Revised November 2014

Product Name: Detectable Plastic Stopwatch

Product Code: 8900478

Pack Size: 1

Product Colour: Blue

Product Description: Detectable plastics stopwatches are suitable for almost all food applications, including environments with greasy, powdery or cold conditions. The stopwatch performs well in both warm and lower working temperatures, and is made from durable detectable plastic so is not easily damaged if dropped or rolled from work surfaces. This product contains replaceable batteries (L1131).

Product Features:

- ✓ Split Lap Time
- ✓ 1/100th Second Accuracy
- ✓ Alarm Feature
- ✓ Start / Stop
- ✓ Reset Button

EU Approval: These casing of this product is compliant with the following standards:

✓ Regulation EC 1935/2004 on materials and articles intended to come into contact with food.

✓ Regulation EC 2023/2006 on good manufacturing practice for materials and articles intended to come into contact with food.

Detectability Information: The casing of this product is made using a detectable plastic material, which is metal detectable subject to correct system calibration. The internal circuitry and components may be metal detectable but are not designed for this purpose.

Testing Information: Niebling recommend that all our products be thoroughly tested on your metal detection systems by a trained and certified professional. It may the case that your equipment may need to be recalibrated in order to reliably detect this product. Such a professional should be available by contacting the manufacturer of your metal detection system.
