

## Product Specifications

| February 2019

### Stainless Steel Slice® Scissors

The Slice® Stainless Steel Scissors stand out from our ceramic safety cutters because of their unique design and 100 percent professional-grade stainless steel composition. They contain no plastic components or coatings and can easily be sanitized.

Some industries require metal detectable cutting tools and we oblige with this strong stainless steel option. Designed by Karim Rashid, these Slice scissors feature an ambidextrous lie-flat design and comfortable hand-polished finger grips.

### Key Information

Product Code:	8900552

- ✓ Ideal for food and medical industry

**Metal Detectability**

Niebling recommend that all our products be thoroughly tested on your metal detection systems by a trained and certified professional. It may be the case that your equipment may need to be recalibrated in order to reliably detect this product. Such a professional should be available by contacting the manufacturer of your metal detection system.
