

## Product Specifications

| Revised Nov 2014

**Product Name:** Detectable Blue Plasters

**Product Description:** Blue plasters are a legal requirement in food manufacturing, providing visual detection should the plaster become a contaminant. Sterochef detectable plasters go one step further by being electromagnetically detectable, an excellent display of due diligence in preventing foreign body contamination.

These plasters contain an aluminium strip, making them detectable by correctly calibrated in-line metal detection systems. The plasters also feature hypo-allergenic adhesive, are latex free, have a 5 year shelf life, and are guaranteed 100% sterile for the life of the product. Sterochef plasters feature a wash proof polyethylene film, making the plasters durable and long lasting in harsh food manufacturing environments.

**Pack Size:** 1 Box

**Pack Weight:** 0.100 Kg (Average)

**Product Colour:** Blue Only

**Product Materials:** Wash proof 60 micron polyethylene film, hypoallergenic adhesive, aluminium strip and latex free lint for wound contact.

**Product Advantages:**

- ✓ Detectable by conventional metal detection systems
- ✓ Highly visible bright blue body colour for easy visual identification
- ✓ Hypo-allergenic adhesive and latex free
- ✓ 5-year product shelf life

## PRODUKTINFORMATIONEN

Plaster Image / Description	Box Contents	Plaster Size	Product Code
Metal Detectable Plaster 	Box of 100	7.5cm x 2.00cm	8900302-B
Metal Detectable Plaster 	Box of 100	7.5cm x 2.5cm	8900304-B
Metal Detectable Plaster 	Box of 50	7.5cm x 5.0cm	8900308-B
Finger Tip Metal Detectable Plaster 	Box of 50	One Size	8900312-B
Knuckle Metal Detectable Plaster 	Box of 50	One Size	8900314-B
7 Assorted Metal Detectable Plasters 	Box of 100	7.5cm x 2.5cm Plasters 6.0cm x 2.0cm Plasters 7.5cm x 5.0cm Plasters Finger Tip Plasters 4.0cm x 4.0cm Plasters Knuckle Plasters Finger Extension	8900300-B

**PRODUKTINFORMATIONEN****Metal Detectability**

All plasters contain a strip of aluminium film, detectable as non-ferrous. Please note this product does not contain tungsten and is not classed as x-ray visible.

Manufacturer recommendations state that the metal detector sensitivity should be ideally set to 2.5mm non-ferrous.

*\*\*Please note: These products are not compatible when used in conjunction with aluminium foil packaging, due to similarity with the detectable attributes of the plasters.*

- ✓ CE Marked Product
- ✓ ISO 13485:2003 Certified
- ✓ 93/42/EEC Compliant

Niebling recommend that all our products be thoroughly tested on your metal detection systems by a trained and certified professional. It may be the case that your equipment needs to be recalibrated in order to reliably detect this product and its fragments. Such a professional should be available by contacting the manufacturer of your metal detection system.
